## STANDARD TYPEWRITERS

Rebuilt standard machines. Only those of latest styles in all carriage sizes, styles of type. Royal, Remington, L. C. Smith, Underwood etc.

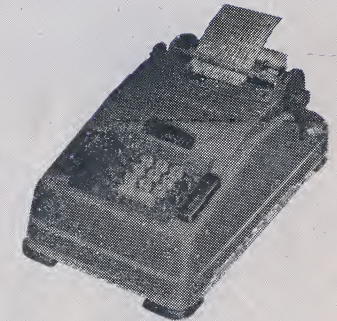

IBM ELECTRIC TYPEWRITERS  
WITH AN IBM GTEE. & SERVICE CONTRACT!

Rebuilt. All carriage sizes and many styles of type. Also, Executive Proportional Spacing machines.

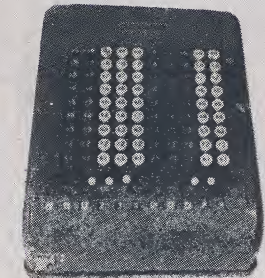

## FULL KEYBOARD ADDING MACHINES

New and rebuilt adding machines. Hand and electric models. Subtraction, credit balance, 8 or 10 columns. Burroughs, Victor, Allen etc.

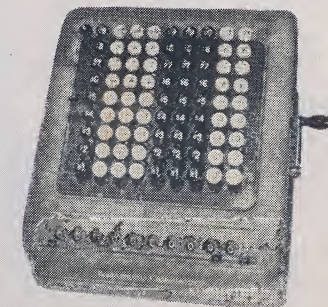

## TEN KEY ADDING MACHINES

New and rebuilt adding machines. Hand and electric. Subtraction, credit balance. Burroughs, Victor, Sundstrand, Remington etc.

## COMPTOMETERS

Rebuilt, hand operated, key driven calculators with automatic keylock. Adds, subtracts, multiplies and divides — in 8, 10 or 12 columns.

## BURROUGHS CALCULATORS

Rebuilt, hand operated key driven 9-column calculators. Hand and electric. Also Duplex models. Adds, subtracts, multiplies and divides.

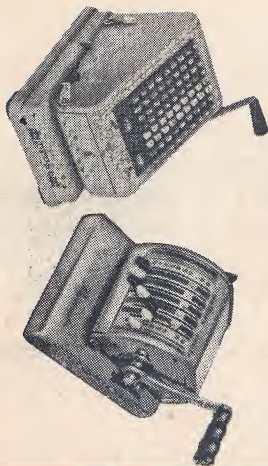

MAILERS EQUIPMENT COMPANY, INC. / MAILERS BUILDING / 38-40

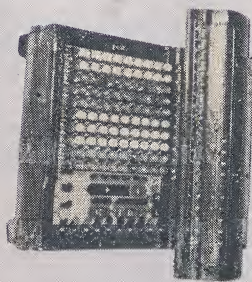

#### DICTATING MACHINES

Rebuilt. Only the original reliable Dictaphone Timemasters and Ediphone Voicewriters. The prices are competitive to the many cheaper imitation makes. Late models.

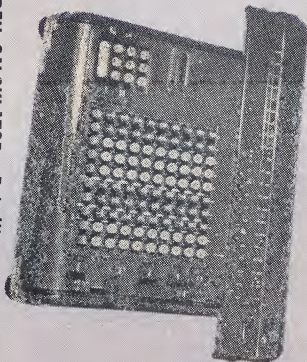

#### CHECKWRITERS

New and rebuilt, hand and electric models. Lever or keyboard type. Positive protection against forging and check raising. Paymaster, Speedrite, F & E etc.

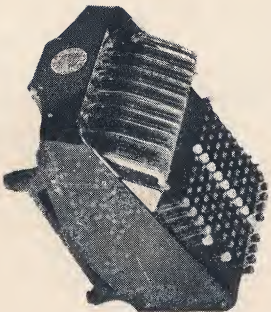

#### MARCHANT CALCULATOR

Rebuilt, high speed, silent, accurate calculators for either or both automatic division or multiplication in 8 or 10 column capacity.

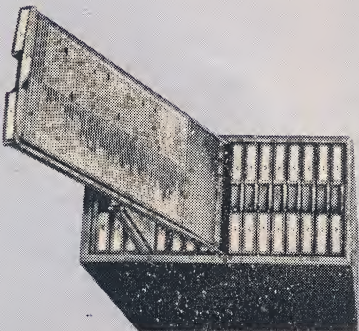

#### FRIDEN CALCULATOR Rebuilt

One of the most popular calculating machines. A fast, heavy duty 8 or 10 column machine. Completely automatic division and multiplication.

#### BRANDT COIN CHANGERS

Automatic dispensers of coins of all denominations. Pushing a key gives you the amount desired, or the change of that amount from one dollar. Models for banks, department stores, theatres etc. Also coin counting, sorting wrapping machines.

#### VISIBLE INDEX FILES

All popular makes — Kardex, Acme, Post Index etc. Cabinets from 6 to 33 drawer capacity. All pocket sizes.

SMALL SECTION OF SHOWROOM

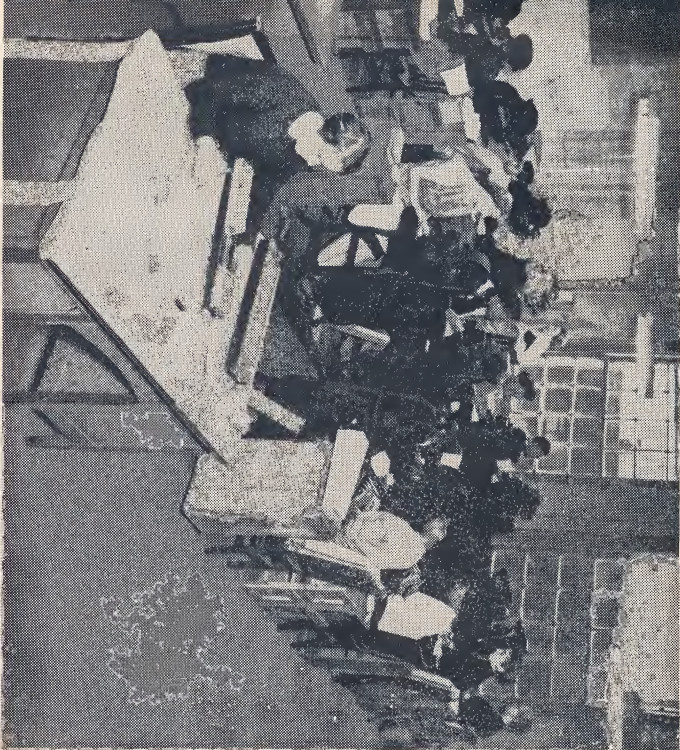

## THE NATIONAL EXHIBIT OF MAILING MACHINES

MAILERS, World's Largest Distributors of New and Rebuilt Mailing Machines, has been serving American industry for more than 35 years. Mailers' occupies 35,000 square feet in its own 6-story building and employs more than 100 people who service, repair and rebuild machines. Because Mailers handles all makes and models, it can recommend the machines best suited to the needs of its customers. All rebuilds are sold at discounts up to 60%, and unconditionally guaranteed for one year.

### OFFICE MACHINES

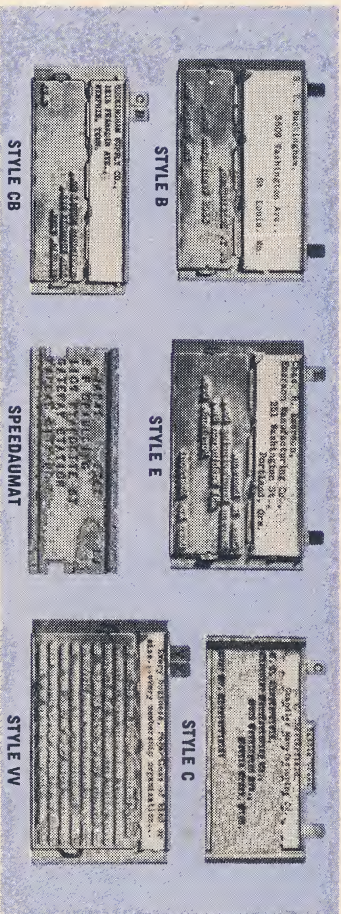

MAILERS EQUIPMENT COMPANY, INC. / MAILERS BUILDING / 38-40

SMALL SECTION OF EMBOSSING DEPT.

## EMBOSSING

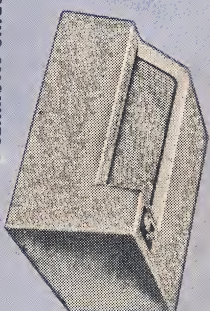

A FEW SAMPLE STYLES....

Pictured above is a section of the Mailers Embossing Department. Occupying more than 5000 square feet in the Mailers Building. It is the largest embossing department in the country and is equipped to handle any style of plate. A well-trained staff of 50 operators, proof-readers and clerks turn out thousands of plates each day. When you send your list to Mailers you get the finest embossed plates in a minimum of time and cost.

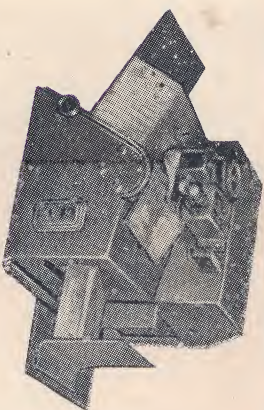

WEST 15TH STREET, NEW YORK 11, N. Y.

Chelsea 3-3442-3-4-5-6

### SHREDDING MACHINES

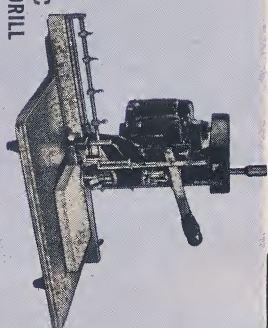

New, electric portable shredding machine. Shreds and destroys confidential papers and records into unreadable, shreds that can be used as packing material. Quiet and safe.

### MAILING PIECE TAPE SEALER

This electric hi speed sealer uses pressure sensitive tape to seal self-mailers, circulars, folders and brochures, that would open if mailed unsealed. Speed is 7200 per hour. Simple to operate.

## MAILROOM EQUIPMENT

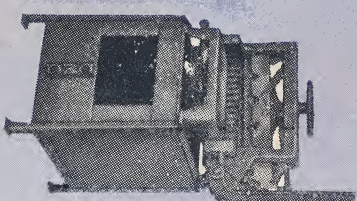

### ELECTRIC PAPER DRILL

New, electric models that will drill multiple holes at one time from 1/8" to 1/2" diameter. Capacity 1" or 250 sheets. Available in bench or floor models.

### NEW MAILERS ELECTRIC SEALER

This surprise package will soon be opened to present an electric sealer that is modern in design and application, and mechanically one of the finest — yet very moderately priced. It will seal all size envelopes at high speed.

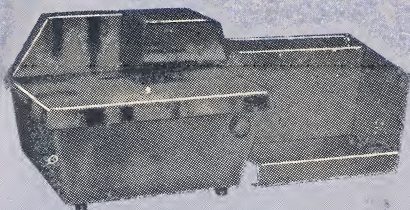

### HEAVY DUTY PAPER CUTTERS

These real rugged heavy duty paper cutters are for real heavy users. Available new and used, and to cut as wide as 30 1/2".

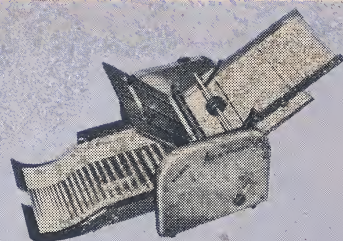

### MODEL 15 HOMS CUTTER

New paper cutter with all features of more expensive machines, but for very much less. Lowest price cutter available. Cuts to 14 1/2" width and 1 1/2" lift or 300 sheets. Beautifully designed. For small users.

#### PREMIER LETTER OPENER

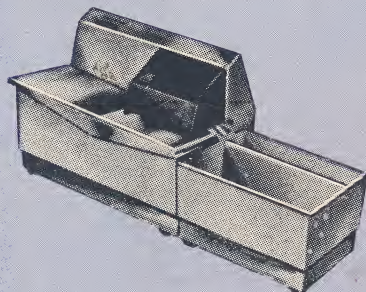

New, lowest priced electric letter opener in its class. Lower priced than some hand models. Compact, portable. Only 9" x 12" in size. Opens all sizes mail at speed to 15,000 per hour.

#### PREMIER FOLDER

New, compact, portable electric folder that any child can operate. Lowest priced in field. Takes all parallel folds, zig-zag and half and half again. Sizes up to 9½" x 15½". Speed to 10,000 per hour.

### MISCELLANEOUS

#### SPEED-O-PRINT MAIL OPENER

New, electric heavy duty opener. Comparable, and better than, big name makes, at great savings. Hi speed. Streamlined.

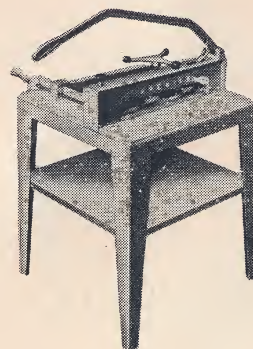

#### BIRCHER (LIGHTNING) LETTER OPENER

Rebuilt heavy duty letter opener. Originator in the field. Sturdy. Hi speed. For all size envelopes.

#### MODEL 1522 MULTIGRAPH FOLDER

Rebuilt electric automatic feed 3-fold in one operation folding machine made by Addressograph Multigraph Co. The only small three fold machine made. Complete with stand. Takes up to 11 x 17 sheets. Folds noiselessly, and up to speed of 10,000 per hour.

#### PREMIER REAM PAPER CUTTER

A low priced, sturdy, paper cutter for office and use in mailing departments. No other machine compares at this low price — for these features. Takes paper to 18" wide and will cut a ream of paper. Safety features protect operator. With or without table.

REPAIR DEPT.

MFG. DEPT.

REBLDG. DEPT.

## REPAIR & REBUILDING DEPARTMENT

MAILERS staff of factory-trained mechanics puts equipment in top working condition. Machines are rebuilt to look and operate like new. Original Addressograph parts are used for an efficient and reliable job of repairing and rebuilding. You are invited to come and see how all machines are stripped down to last bolt and nut — then built up again with accuracy and precision.

## MANUFACTURING DEPARTMENT

A complete machine shop and manufacturing plant staffed with high calibre engineers, machinists and die men, to make nearly all styles of plates, frames, trays etc., and many parts for many mailing machines.

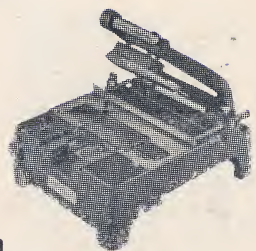

## MAILERS SALES POLICY

**GUARANTEE** ... All machines guaranteed one year against defective parts.

**ON APPROVAL** ... All merchandise and machines gladly shipped on 5-Day approval. If returned for any reason, you pay only for crating and freight both ways.

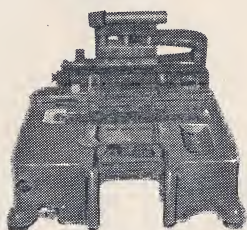

**RENTALS** ... Initial rental payments applied to purchase price.

**TERMS** ... Net 30 days, F.O.B. New York City.

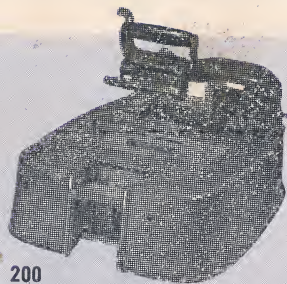

#### MODEL 100

Single metal plate addresser, especially good for labels, tags, billing, imprinting and proofing. Slip a plate in — flip a plate out.

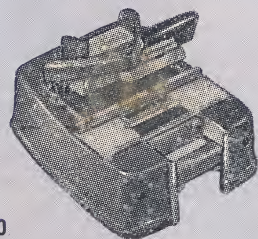

#### MODEL 300

Oldest model of hand automatic addressers. Has all features of later models, except skipper lever and automatic ribbon reverse. Solidly built. Addresses anything. Speed to 1000 per hour.

#### MODEL 200

Hand operated addresser. Current model. Same operation and features as Models 300 and 700. Addresses metal plates through ribbon. Skips, repeats, duplicates and dates. Automatic ribbon reverse. Addresses anything. Speed to 1000 per hour.

#### MODEL 30

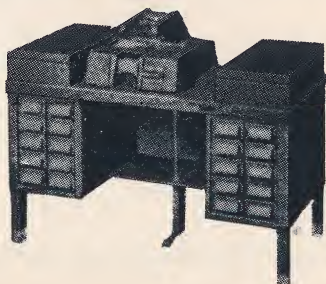

Small, lightweight addresser. Can address anything up to a speed of 1000 per hour. Limited to CB style only. Does not date, skip or duplicate.

## ADDRESSOGRAPHS

#### MODEL 700

Same features as Model 300 above, plus skipper lever and automatic ribbon reverse. More modern and streamlined. Addresses anything. Speed to 1000 per hour. A later model than 300, but earlier than 200.

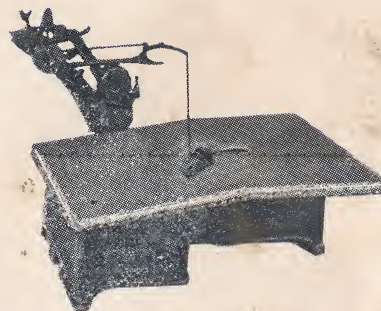

#### MODEL 904

Portable electric addressing machine. With or without stand, foot pedal and shelves. Speed to 1500 per hour. Addresses everything. Prints a constant even address. Dates, skips, duplicates and repeats. Electric control instead of heavy banging of printing head.

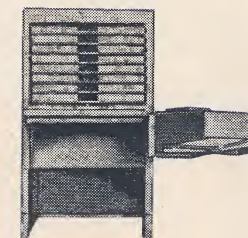

#### MODEL 980

Same as 904, except built into desk holding trays for 1750 or 3500 plates. Having plates with machine offers more convenience and speed in addressing.

#### SAXMEYER TYING MACHINE

Rebuilt tying machines. Automatic table trip only. Portable models most popular. Good for tying lighter items.

#### COLLATORS

Rebuilt Thomas or Collomatic collating devices. Available in many different bin capacities and paper sizes from 4" x 5" to 20" x 17". Foot or electrically operated. A tremendous time saver and convenience. Gathers together many sheets in one movement — at one spot.

#### TABLE & WHIRLING MAIL RACK

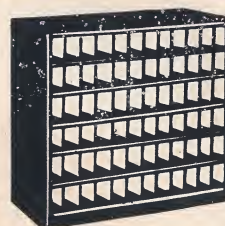

Combination provides an effective work station. Each whirling mail rack holds twelve hook-on trays. Rack is mounted on or through table.

#### TRAVELING MAIL CONVEYOR

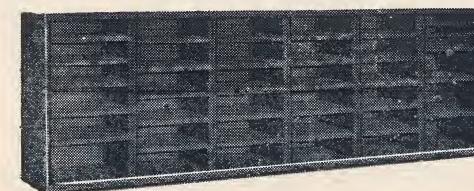

A mobile storage conveyance that saves storage space. Enables easy movement of loaded trays of mail to and from different sections and departments. Many sizes of trays to fit all sizes and shapes of bulk matter.

## MAILROOM EQUIPMENT

#### SORTING BINS

Steel sorting bins for mail or parts. These come in many sizes of bins and number of bins to a cabinet. All are 12" deep. Label holders on front shelves. Shelf dividers adjustable left and right on 1" centers.

#### SORTING FILES

All steel 16 and 36 compartment sorting files. Shelves are adjustable on 1/2" centers. Each shelf has own label and holder. Each opening is 10" wide and 12" deep. Extra shelves can be added to either unit.

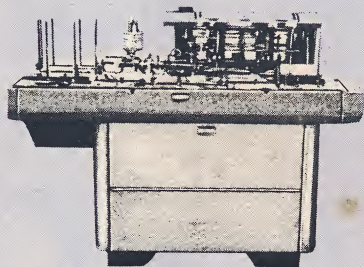

#### FELINS PAK-TYER

This new tying machine comes with automatic table trip or foot pedal. Ties almost anything. Capacities up to 16" high. Ties 6 ply to 24 ply cord.

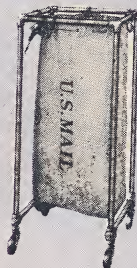

#### BUNN TYING MACHINE

Rebuilt tying machines. Come in many size capacities. Can cross tie, or double and triple tie.

#### PHILIPSBURG INSERTER

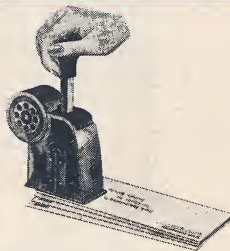

Reconditioned machines that insert, many sizes and varieties of matter into envelopes and seals them. Come in 4, 6 and 8 stations. A very sturdy, heavy duty work horse of a machine.

#### MAIL BAG RACKS

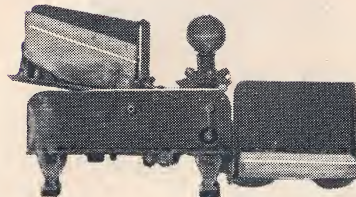

Available in singles and doubles — or any sizes or layouts desired. Heavy steel pipe. Revolving casters. Special slip-out, flip-out hooks for easy removal of heavily-filled mail bags.

### MISCELLANEOUS

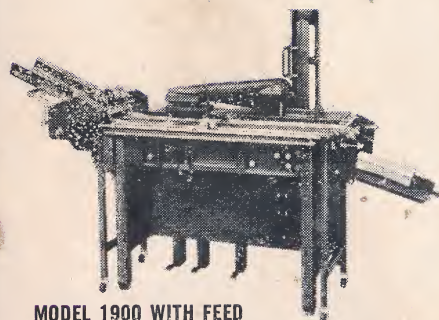

#### MAILERS STAMP AFFIXER

New. A simple, compact apparatus like a numbering machine. Affixes actual stamps. Loads roll of 500 stamps. Available in many denominations. Cuts, wets and fastens stamps to envelopes — up to 150 a minute! No meter needed.

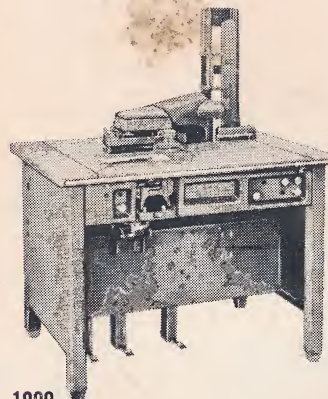

#### SEALING MACHINES

Hand and electric Standard sealing machines. Speed to 10,000 per hour. Adjustable to 7" deep size. Stack envelopes into hopper and they come through, sealed, into receiving hopper. No meter needed.

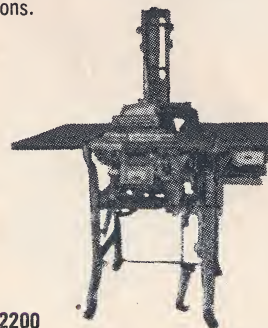

#### MODEL 1900 WITH FEED

Latest electric addressing machine with automatic feed (optionally friction or suction). Loads a trayful of plates. Speed to 5000 per hour. For any style plate. Takes most any forms.

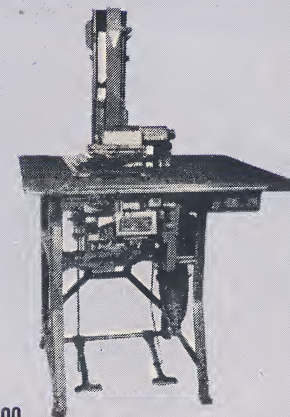

#### MODEL 1900

Most modern electric addressing machine. Takes trayful of plates. Attachable, are automatic feeds, listers, daters and selector. Dates, skips, repeats and duplicates. Addresses anything. Speed to 3000 per hour. Selector for 24, 48 and 60 positions.

#### MODEL 2200

The original work horse ribbon print electric addressing machine. Was replaced by 1700 and 2700. Though discontinued many years ago, we rebuild like new. All parts available. Takes all selector, lister attachments. Speed to 2500 per hour.

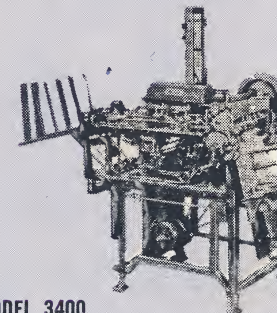

#### MODEL 1700

Late electric machine. A work horse. Takes a trayful of plates. Attachable listers, selector, but no automatic feed. Dates, skips, repeats and duplicates. Addresses anything. Speed to 2500

#### MODEL 2700

Same as Model 1700, but heavier duty machine. Originally sold for more than 1700, though we sell for less. Discontinued and replaced by 1900. Has all features and can take same attachments as 1700 or 1900, except feed.

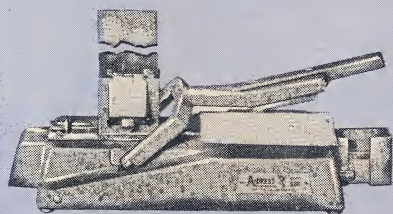

#### MODEL 3400

The best suction feed automatic machine. Continuously load or unload plates and forms without stopping machine. Speed to 7500 per hour. Takes almost any forms. Equipped with selector, dater, duplicator, repeater. Stops automatically.

### MODEL 600 (original ADDRESSOGRAPH)

Hand operated, high speed addresser for Speedamat plates. Addresses anything. Speed to 1500 per hour. Skips, repeats, duplicates. Automatic loading of feed hopper only.

### MODEL 500 ADDRESS-R

A smaller new, inexpensive copy of Model 600 above. Does everything original Model 600 will do. Also a new Model 600 Address-R for automatic loading and unloading.

### MODEL 2600 WITH AUTO-FEED

Latest model, high speed addressing machine for small, inexpensive Speedamat plates. With and without automatic feed. Never stop machine to load or unload plates or forms. Excellent for very large lists and publications. Speed to 6500 per hour.

## SPEEDAUMATS and

### MODEL 1900 SPEEDAUMAT (CONVERTED)

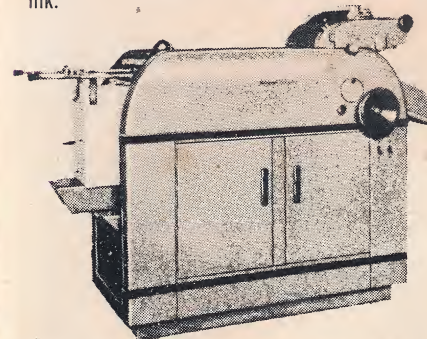

Because of the scarcity and very high price of 2600 Speedaومات without feeds; we make these converted models. They operate even better than 2600 and can take strip lister and automatic feed attachments. We are able to sell them for much less.

### MODEL 6700

Automatic Keyboard Graphotype. Perforated tape is fed into machine, to automatically emboss names on plates. Automatically feeds plates to be embossed and ejects plates in filing order. Operates unattended at high rate of speed.

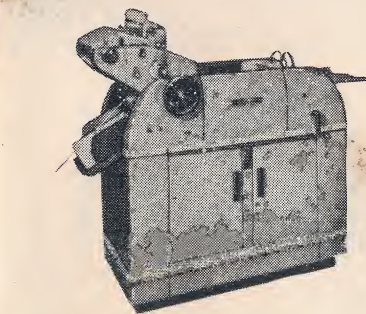

### STANDARD ELECTRIC SPIRIT DUPLICATOR

Electric, automatic feed liquid duplicator. Heavy duty. Complete with cabinet. Hi speed for busy office. Also hand and wide models. No messy ink.

### MODEL 250 MULTIGRAPH

Electric, suction feed duplicator that prints with type, either through a ribbon, or with ink, exactly like a printing press. Excellent for duplicating letters, price lists or imprinting. Can also print with cuts. Speed to 6000 per hour. Holds 5000 sheets.

### MODEL 1250 MULTILITH

This high speed, streamlined offset duplicator can reproduce anything and everything within the sizes of 11 x 15. Ideal for average firms to run all their business forms, letters, circulars etc. Speed to 6000 per hour.

### MASTERSET DUPLICATING STENCILS

The high quality of our Mastersets enables the clear reproduction of up to 500 copies. Packed 100 to box. For spirit duplicators.

### DUPLICATING INK

Our high quality ink, economically priced, is chemically compounded to give excellent quality reproduction without clogging. For open and closed drums. Available in one pound cans.

### INK DUPLICATING STENCILS

These stencils are of highest quality for typing clear cut characters. Reproduces beautifully for a maximum number of copies. With or without plicofilm to avoid cutting out characters. 24 stencils to quire. For mimeograph.

### SPIRIT FLUID

A superior duplicating fluid for use with all spirit duplicating machines. Available in gallon cans.

### FLEXO-TYPESETTER

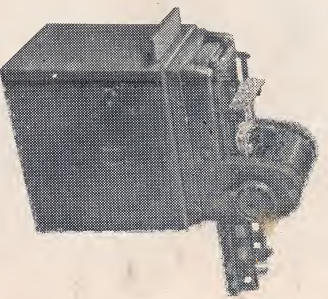

This holds 115 lines of type of nearly 100 pieces each to a line — pica, elite or other sizes. This typesetter enables fast, accurate selecting and setting type for multigraphing.

### SEGMENTS

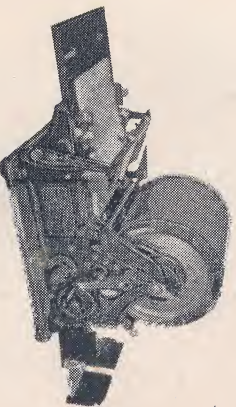

These segments used with Multigraph are available in letter, legal and vertical styles, as well as special spacing. Also one and a half, and double width sizes.

**MODEL 450 A. B. DICK**

Latest, largest, completely automatic ink duplicator. Heavy duty. Holds 500 sheets. Hi speed, with variable speeds up to 7200 per hour. Has automatic paper feed and shut-off, automatic closed inking cylinder and automatic counter.

**MODEL 77-858 A. B. DICK**

Hand operated, automatic feed, automatic closed cylinder inking duplicator. Holds 200 sheets. Automatic set back counter. One of the older heavy duty workhorses at very low price. Can easily and cheaply be electrified at any time.

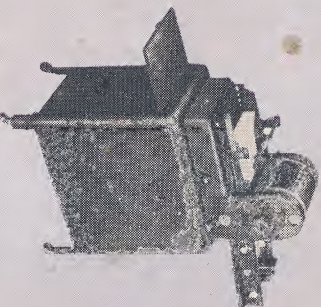

**DITTO SPIRIT DUPLICATOR**

Simple, hand operated automatic feed liquid duplicator. Streamlined. Up to 500 copies from one master. Also available in electric and wide models. No messy ink.

**MODEL 90 A. B. DICK**

Later model, least expensive hand operated, automatic feed duplicator. Holds 150 sheets. Open fountain with brush inside for inking.

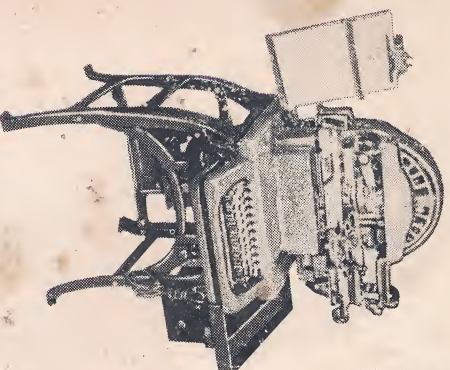

**MODEL 92 A. B. DICK**

This machine exactly like latest Model 450 above, which replaced it. Therefore, same heavy duty automated machine with all same features — but at even a greater saving and lower price.

**HEVER SPIRIT DUPLICATOR**

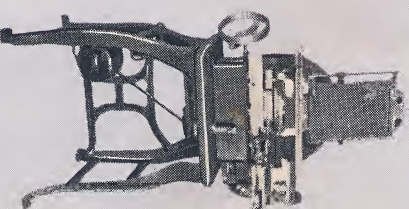

New and used, hand and electric liquid duplicator. Prints up to 500 copies, and from one to five colors. Heavy duty, with more improvements and features than other machines in same price range. No messy ink.

**MODEL 6300**

Electrically operated Graphotype. Embosses from keyboard like a typewriter, up to 1000 per day. Comes in all capital characters only; or in upper and lower case. Also, can come with extra set of large numbers. For all style plates.

## GRAPHOTYPES

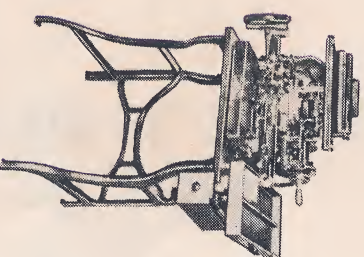

**MODEL 6200**

Electrically operated Graphotype embosses metal plates. Available for all styles of plates. Either for all capital letters only; or for capitals and small letters; or, capitals plus extra set of large numerals.

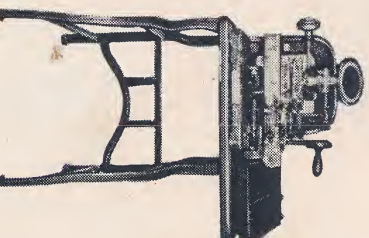

**MODEL 350**

A modern, lightweight imitation of the standard heavy duty hand Graphotypes like the 6140, yet priced higher. Comes in capital letters only.

**MODEL 6180**

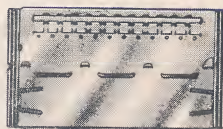

Hand operated. Embosses metal plates in all styles. Has a plate roller attachment. Type in capitals and small letters. Embosses up to 400 plates a day. Available only with stand.

**MODEL 6140**

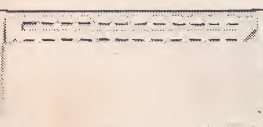

Embosses metal plates for Addressograph. Hand operated. Type in capital letters only. For all style plates. Embosses up to 400 plates a day. With or without stand.

## DUPLICATORS and SUPPLIES

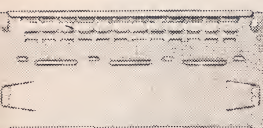

### STYLES B - E - Q - P - VV

Samples of Addressograph frames. These come in styles holding plates up to 9 lines; and even 2 or 3 different plates on one frame. Index card printed from plate identifies name, up to 5 line visibility. Slots hold tabs for automatic selecting.

#### STYLE C

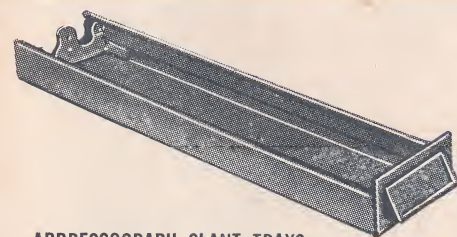

A one piece plate with 6 line capacity. Also slots for selection. No inserting of plate or card. Read raised embossed type. Money saver.

#### STYLE CB

A slightly more economical plate, card and frame arrangement. Exactly like frame above, but smaller. Six lines maximum embossing. Index card has 3 line visibility.

## ADDRESSOGRAPH SUPPLIES

### ADDRESSOGRAPH SLANT TRAYS

New and used. Late style, slant front. Holds 175 frames of 2 1/4" x 4" size. Fits into all standard cabinets. Also CB to hold 1 1/4" x 4" frame.

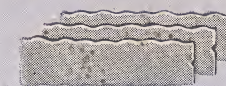

### SPEEDAMAT TRAYS

New and used. Holds 350 Speedamat plates of 1" x 2 5/8" size. Fits all standard Speedamat cabinets.

### SPEEDAMAT PLATES

Alloy or zinc. Also one side colored, embossable plates for better visibility. Completely colored plates for use as dividers. Also copper and brass.

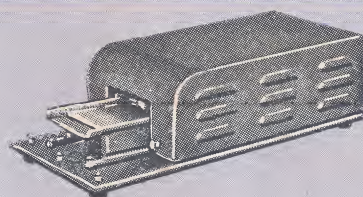

### B PLATES

Sample of one of the thirty styles of plates we manufacture in alloy or zinc.

### TABS

Available in full or half style—for shifttab frames and new locktab frames. Plain metal or colors. Also special 60 position tab with holes.

### AUTOMATIC TAB PULLER

Operates electrically. Removes all types and styles of tabs from frames at rate of 1000 frames per hour, and up to 12 tabs in each frame. Tabs pulled are not distorted and can be used again.

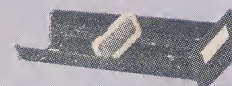

### RIBBONS

Quality ribbons for all Addressograph and Speedamat machine models. Available in all sizes, colors and extra lengths.

### STENCILS

Fibre stencils easily prepared on any typewriter. Available in manila—or a variety of colored borders. Size 2" x 4 1/2".

### TRAYS

Short, long and extra long trays, with and without fronts or slip-on fronts. Short trays hold 125 stencils. Long trays hold 250 stencils. Extra long trays hold 350 stencils.

### CLAMP

Can be used on any typewriter to prepare stencils. Several sizes to fit different typewriters. Holds stencil to platen while typing.

### INK

Available in liquid or paste form—in black or blue.

### MOISTENER

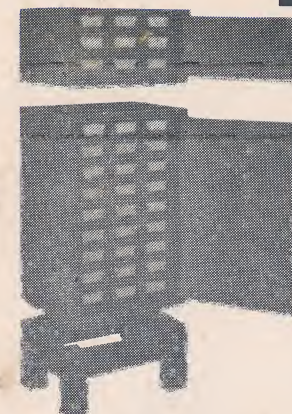

To moisten the stencil before typing. Stencil cannot be cut without it. Several styles—flat chamois, semi-automatic felt and automatic.

## SUPPLIES

### L. C. SMITH STENCIL TYPEWRITERS

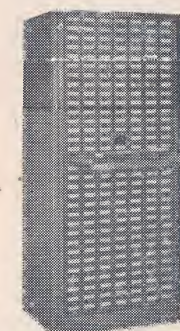

These special typewriters, in hand and electric, enable high speed typing of stencils. Automatically types on frame, and then throws ribbon off for typing stencil itself. Avoids bending the stencil frame.

### 9 AND 27 DRAWER CABINETS

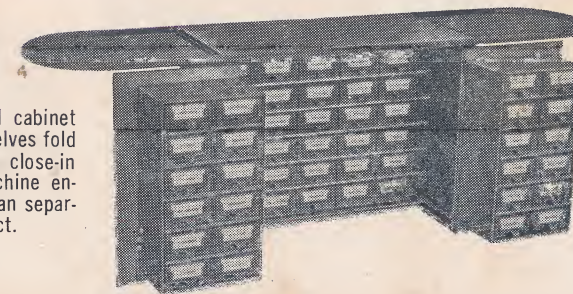

9 drawer steel cabinet holds 9 long trays (250 stencils) or 18 half trays (125 stencils). Capacity 2250 stencils. Trays can be without fronts, permanent fronts or slip-on fronts.

27 drawer steel cabinet holds 27 long trays (250 stencils) or 54 half trays (125 stencils). Capacity 6750 stencils. Trays can be without fronts, permanent fronts or slip-on fronts.

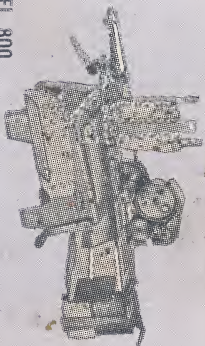

### 100 DRAWER CABINETS

Holds 100 long trays (250 stencils) or 200 half trays (125 stencils). Capacity 25,000 stencils. Trays can be without fronts, permanent fronts or slip-on fronts. Comes with double swinging doors or doors that slide into sides of cabinet.

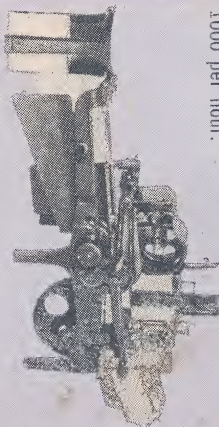

### UTILISTAND

An ideal steel combination stand and cabinet that holds up to 5000 stencils. Side shelves fold up to enable a cover to snap on and close-in machine. Proximity of stencils to machine enables faster operation. A better buy than separate cabinets for smaller users. Compact.

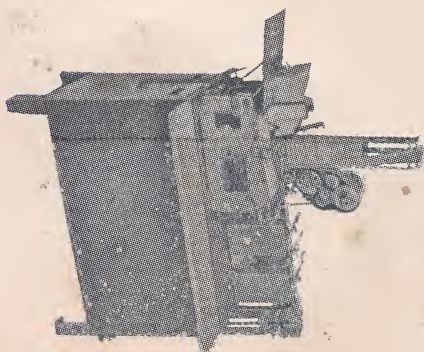

**MODEL 800**

Latest model, hand operated, hand feed stencil addresser. Fibre stencils feed and eject automatically. Loads 125 stencils. Addresses up to 1000 per hour.

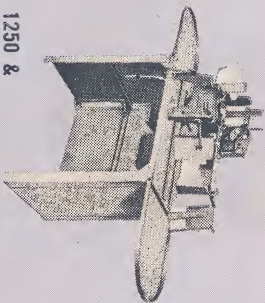

**MODELS 1250 & 1500**

Hand operated but automatically feeds, addresses and ejects envelopes and postcards at speed of 5000 per hour. Model 1500 also prints messages on postcards.

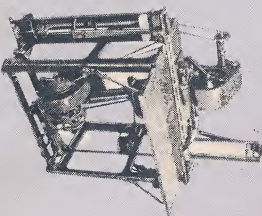

**MODEL 5500 AUTOMATIC FEED**

Large, specialized, automatic feed addresser. Speed to 10,000 per hour. Takes trayfuls of 250 to 350 stencils. Restricted to automatic feeding of only regular envelopes and postcards.

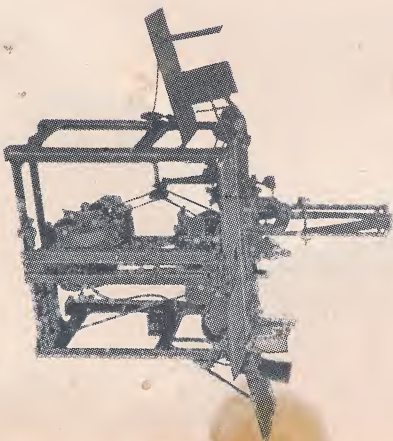

**MODELS 1250 & 1500 ELECTRIC**

Like hand machines above, except that they operate electrically at high speed.

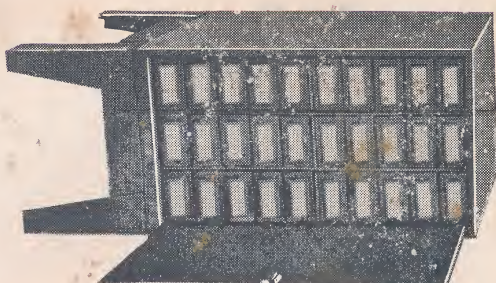

**MODEL 3000**

Heavy duty, versatile, electrically operated addresser. Loads and unloads trayful of 250 stencils. Can feed matter of all sizes and thicknesses not conducive to automatic feeding. Also takes variable listers and selectors.

**MODEL G-3 EAST WEST AUTOMATIC**

Most adaptable and complete automatic feed addresser. High speed up to 10,000 per hour. Can adapt listers and selectors. Feeds most everything in varied mail matter. Takes tray of 250 to 350 stencils.

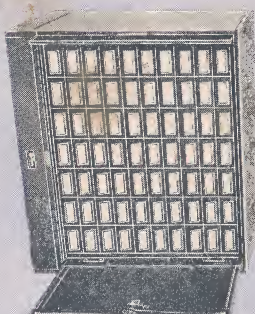

**30 DRAWER CABINET**

This 30 drawer steel cabinet is most popular size and holds 5250 plates. Comes in 6, 12, 18 drawer sizes. Available new and used. Other sizes for special styles of plates. Furnished with or without swinging doors, disappearing doors, or with bases or linoleum tops.

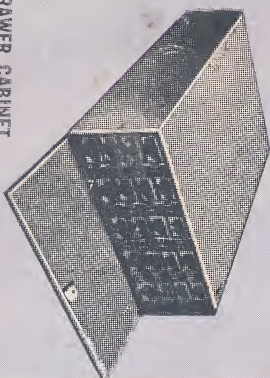

**133 DRAWER CABINET**

The largest size steel cabinet available. Holds 133 trays for 23,500 frames. New and used, in grey and green. Also 161 drawer for C and GB plates.

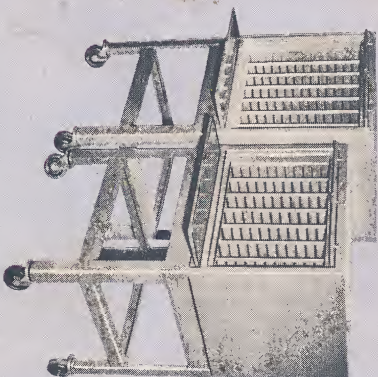

**70 DRAWER CABINET**

Refinished modern steel cabinet in grey or green. Holds up to 12,500 frames. Can be equipped with base and linoleum tops. Comes either without doors or sliding doors that disappear into the sides of the cabinet. Also 84 drawer for C and GB plates.

**20 DRAWER CABINET**

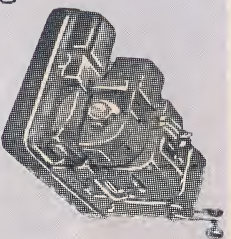

New, 20 tray Speedamat steel cabinet. Green or grey. Holds 20 trays for 7000 Speedamat plates. Small, portable.

**77 AND 98 DRAWER CABINETS**

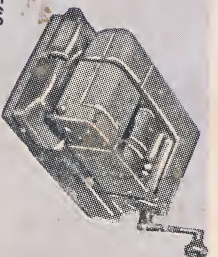

New or used, Speedamat grey or green sturdy steel cabinets. Can be equipped with high or low roller bases, disappearing door and pull out work shelves. The 77 cabinets hold 25,000 and the 98 cabinets hold 37,500 Speedamat plates.

## ELLIOTT MACHINES and

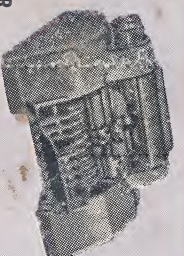

**MODEL 6800**

Latest, heavy duty hand operated postage meter mailer. Seals as it stamps. Built-in parcel post unit imprints any amount of postage on wet or dry tape. Sturdily built.

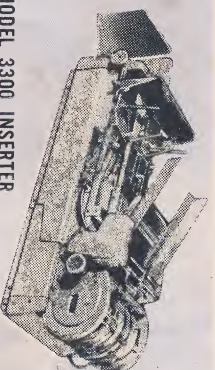

**MODEL 5500**

A small, lightweight imitation of Model 6800, and used in smaller mailing operations. Also seals and stamps, but requires separate attachment for parcel post tape, produced dry only.

**TICKOMETER**

Accurately counts paper currency, coupons, checks, and other forms, at phenomenal speeds. Dates, codes, endorses, validates, or otherwise imprints. Electrically driven. Automatically handles up to 1000 pieces per minute.

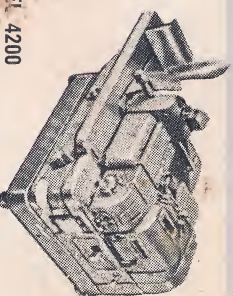

**MODEL 3300 INSERTER**

Automatically inserts tabulating cards, bills, statements, etc. into envelope. An FH or FM Folder can be attached to automatically fold and insert into envelope in one operation.

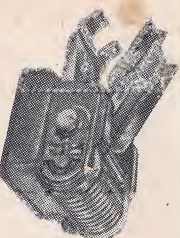

**MODEL 4100**

Electric meter machine. Envelopes fed by hand for mailing and stamping in one operation. Very fast. This model especially good for automatic tape imprinting for parcel post.

**MODEL 4200**

Electrically operated meter machine with automatic feed, for envelope sealing and stamping at high speed rate of 175 per minute. For large volume of letter mail and parcel post.

**FOLDERS**

Models FH and FM Hi-Speed folders. All two-parallel folds, zig-zag folds, and folds in half and half again. Model FH for sheets to legal size. Model FM for sheets up to 11 x 22. FM is much heavier duty and very fast.

**LA MAILOPENER**

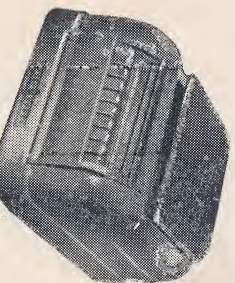

Hi-speed electric automatic letter opener. Adjustments for various sizes and thicknesses of envelopes. Also adjusts for depth of cut. Speed to 10,000 per hour.

## PITNEY-BOWES MACHINES - EQUIPMENT

**MODEL 4300**

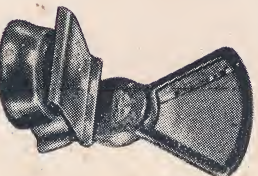

The largest, most versatile, high speed automatic meter machine. Built for extra heavy duty mailings. Takes a larger range of sizes and thicknesses of envelopes and flaps.

**MODEL 3700 PARCEL POST SCALE**

A 70 lb. capacity scale for parcel post and air post. Large platform. Pressing zone button gives proper postage automatically computed, shown magnified and illuminated.

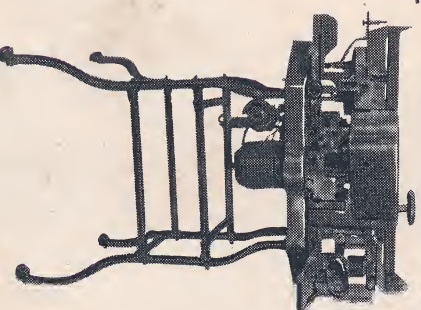

**SMALL PRECISION MAILING SCALES**

Scales with capacity from ounces to 10 lbs. For small first class and parcel post use. Accurate automatic pendulum action. Postal rating chart is large and legible and computes airmail, first class and parcel post by zones.

**AV INDICIA IMPRINTER**

Seals, prints and operates six-denomination postage meter. Prints postage, postmark and postmark advertisement on envelopes as large as 12" x 14" and 1/4" in thickness. Speeds up to 15,000 per hour.

**MAILOMETER**

Automatic sealer and stamp affixer. Seals, counts and affixes actual stamps on envelopes at speed up to 15,000 per hour from rolls of 3,000 stamps. Adjusts for envelope size.
